EDUCATION

Cavite State University - Naic Campus

Bachelor of Science in Computer Science

Expected Graduation, September 2026

- Magna Cum Laude Candidate (GPA: 1.34), Dean's Lister (2022–2026).
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Programming, Database Systems, Software Engineering & Project Management

SKILLS

Languages: JavaScript, Java, SQL, HTML5, CSS, Tailwind CSS, PHP

Frameworks/Libraries: React, Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Technologies: Visual Studio Code, XAMPP, Git & GitHub, RESTful APIs & AJAX, Cisco Packet Tracer, SketchUp

EXPERIENCE

Information Technology Department, Cavite State University – Naic Campus

IT Intern (On-the-Job Training)

July 2025 – August 2025

- **Led a team of 3** in developing the ODCI Record Management System (PHP, JavaScript), a centralized document platform deployed across 6 departments.
- Designed the **UI/UX** for a faculty-commissioned Enrollment Management System, authentication pages, dashboards, tables, and data-entry layouts.
- Migrated 4 laboratory rooms (~25 computers) from **Windows to Linux Ubuntu**, independently resolving installation and compatibility issues via command-line configuration.

PROJECTS

SupplyNest (*Lucas Foods & Poultry Supplies POS System*)

Full-Stack Developer

September 2024 – January 2025

- Developed and deployed dual-role **MERN POS platform** (Admin/Cashier) for a food and poultry supply business, replacing manual record-keeping and time-consuming daily inventory checks.
- Built digital weighing scale integration that **auto-calculates** weight-based bulk pricing, alongside inventory tracking with **automated low-stock alerts**.
- Implemented Chart.js sales dashboards (daily/weekly/monthly) and FullCalendar-based delivery/payout reminders, with a **5-minute auto-refreshing** view for real-time operations overview.
- **Tech Stack:** React, Node.js, Express.js, MongoDB, Tailwind CSS, Chart.js, FullCalendar

CvSUHimay (*Undergraduate Thesis — 3D Fish Deboning Simulator, Team of 3*)

Full-Stack Developer

June 2025 – May 2026

- Architected and finalized the **13-state Mealy-type FSM validation engine** and built the backend **REST API** on a **21-table MySQL schema** with JWT/OAuth authentication.
- Diagnosed simulation **performance bottlenecks** and resolved them via **Draco compression**, batching 204 bone meshes into 4 atlas GLBs, cutting asset size **99.75%** (~135MB → 344KB) for smooth performance on low-end campus machines.
- Built a **gamification module** (XP, 6 rank tiers, 21 badges, leaderboard) and an instructor **analytics dashboard** with per-step error tracking and mastery scoring, on a Tailwind CSS component system.
- Validated by 10 independent instructors with a **4.94/5 overall ISO 25010 score**, including perfect **5.00/5** marks in functional suitability and security.
- **Tech Stack:** React, Node.js, Express.js, MySQL, Tailwind CSS, Draco
